1-Month UI/UX Designing Immersion Internship

Designed by: CountryEdu Private Limited

By CountryEdu Private Limited

(IT Managed Services & EdTech Solutions)

Program Objective :

- Understanding user interface (UI) and user experience (UX) design principles and methodologies
- Developing expertise in wireframing, prototyping, visual design, and user-centered design practices
- Learning design thinking, usability testing, and interaction design techniques
- Building intuitive, attractive, and user-friendly digital products and applications
- Understanding design systems, accessibility standards, and modern UI/UX trends
- Preparing students for careers in UI/UX Design, Product Design, Interaction Design, and Digital Experience Design

Program Structure :

- Duration: 4 Weeks (1 Month)
- Mode: Hybrid / Live / Classroom
- Tools Used: Figma, Adobe XD, Canva, Miro, Photoshop, Illustrator
- Final Outcome: UI/UX Design Portfolio Project + Internship Certificate

Week 1: UI/UX DESIGN FUNDAMENTALS

- Introduction to UI & UX Design
- Design Thinking Process
- User-Centered Design Principles
- UX Research Fundamentals
- Information Architecture
- UI/UX Design Tools Overview

~ Outcome: Strong foundation in UI/UX concepts, user behavior analysis, and design methodologies.

Week 2: WIREFRAMING & USER EXPERIENCE DESIGN

- User Research & Personas
- User Journey Mapping
- Wireframing Fundamentals
- Low-Fidelity & High-Fidelity Wireframes
- User Flow Design
- Navigation Structure Planning

~ Outcome: Ability to create effective wireframes and design seamless user experiences.

Week 3: USER INTERFACE DESIGN & PROTOTYPING

- Visual Design Principles
- Typography & Color Theory
- Design Systems & Components
- Interactive Prototyping
- Responsive Design Concepts
- Mobile & Web Interface Design

~ Outcome: Ability to design attractive, consistent, and responsive user interfaces.

Week 4: USABILITY TESTING & PROJECT DEVELOPMENT

- Usability Testing Techniques
- User Feedback Analysis
- Design Iteration & Optimization
- Accessibility & Inclusive Design
- Portfolio Development
- Project Presentation & Industry Best Practices

~ Outcome: Ability to evaluate, improve, and present professional UI/UX designs based on user feedback and industry standards.

LIVE PROJECT & CAREER READINESS

Students work on real-world UI/UX Designing projects such as:

- E-Commerce Mobile App Design
- Food Delivery Application UI/UX
- Banking & Finance Dashboard Design
- Healthcare Mobile App Design
- Educational Platform Interface
- Travel & Tourism Application Design

Project Includes:

- User Research & Requirement Analysis
- User Persona Creation
- Wireframing & User Flow Design
- UI Design & Interactive Prototyping
- Usability Testing & Optimization
- Final Project Presentation

~ Outcome: Hands-on experience in designing industry-level digital products demonstrating UX research, wireframing, prototyping, visual design, and usability testing capabilities.

From beginner to job-ready — Become a UI/UX Design Professional in 1 Month.
